

aspire · enjoy · include · respect · community

We are proud of our school's reputation for outstanding primary transition and pastoral support. We have just welcomed our biggest ever cohort of students into Year 7 from 31 different primary schools across West Cumbria.

We have a close working relationship with our local primary schools, which means we can build a personalised picture of the students that join us.

We have a thorough transition programme that reduces the anxiety around the move from primary to secondary.

23% of students joining Year 7 in 2020 were from out of catchment schools.

Our pastoral teams work closely with our students and their families, we encourage and build strong relationships and prioritise good communication.

When surveyed last year our students confirmed that they felt safe and secure at Cockermouth School.

The majority of Year 7 students continue their studies at Cockermouth School into the sixth form, ensuring they spend 7 years with us.

Expectations of behaviour are extremely high. When questioned last year students reported high standards of behaviour that had improved even further.
